

PSG SUMMIT 2026

SCIENTIFIC PROGRAM

Day: 01. Friday April 10, 2026

Session 01 – Esophagus I

Esophageal Motility Disorders: Recent Advances

Esophageal Stricture Management: Latest Techniques

GERD: Current Diagnostic and Management Algorithms

Endoscopic Therapies in Achalasia

Eosinophilic Esophagitis

Session: 02 Stomach & Esophagus II

Functional Dyspepsia: Practical Approaches

H. Pylori: Resistance and Novel Eradication Therapies for Our Region

The Role of Gut Microbiome in GI Diseases and Cancers

Importance of Basic Endoscopic Education

Gastric Cancer Prevention, Screening and Innovations in Endoscopic Resection of Gastric lesions.

Session: 03. Stomach & Esophagus III

Evolving Endoscopic Techniques in Upper GI Non-Variceal Bleeding

Management of Gastric and Esophageal Varices

Advances in Esophageal and Gastric Stenting

G-POEM and Novel Submucosal Dissection Techniques in Upper GI Diseases

Endoscopic Therapies for Obesity

Women In Gastroenterology Leadership Workshop

Session 01

Lecture: The Gender Equity Challenge in Medicine and GI: how high have we climbed so far?

Shaping the future of women in endoscopy leadership: lessons from leadership journeys

Session 02

Lecture: Mentorship and Sponsorship in action

Pathway to promotion in: research, publishing, teaching, presenting, networking

Session 03

Lecture: Work-Life Integration: how can this be achieved in Pakistan?

Discuss cultural issues around pregnancy/family expectations, training requirements, strategies to fix (including changing training pathways, allyship, childcare, etc)

Session 04

Lecture: Elevating the field of endoscopy in Pakistan through innovation.

Lecture: Ergonomics- how “inclusive innovation” lifts the field.

Lecture: Gamechangers in techniques and technology (include AI, endosurgery including TEUS and third space).

Challenges in implementation in Pakistan

Session 05

Lecture: Global Perspectives: Women in Endoscopy around the world-

Lecture: Harnessing Social

Creating action items: Building Global collaborations and networks- all the women leaders

Closing Remarks

Day: 02. Saturday April 11, 2026

Session: 05 Small Intestine and Gut Microbiome I

Capsule Endoscopy: Current Status in GI Workup
Advances in Deep Enteroscopy Techniques
Crohn's Disease: Precision Medicine and Biologic Therapies
Obscure GI Bleed
Small Intestinal Bacterial Overgrowth (SIBO): Diagnosis and Treatment

Session: 06 Small Intestine and Gut Microbiome II

New Insights into Celiac Disease and Gluten Sensitivity
Management of Ischemic Enteropathies
Small Intestinal Infective Enteropathies: Parasitic and Non-Parasitic
Clinical Approach to Chronic Diarrhea
Clinical Approach to Fatty Liver

Session: 07. Small Intestine and Gut Microbiome III

Non-Esophageal Eosinophilic Disorders of GI
Role of Intestinal Ultrasonography in IBD
How to run GI unit
IBS Diagnosis and Management Strategies.
Role of FMT in GI Disorders

Session: 08. Large Intestine and Colorectal Disorders I

Advances in Surgical Techniques in Colorectal Cancer and IBD
Management of Colonic Diverticulosis
Latest Trends in Management of Advanced Colorectal Cancers- Spectrum Extends
Role of Radiomics in Colorectal Oncology
Evaluation and Management of Dyssynergic Constipation

Day: 03. Sunday April 12, 2026

Session: 09. Large Intestine and Colorectal Disorders II

Advances in Colorectal Cancer Screening: Colonoscopy & Beyond
Endoscopic Mucosal Resection (EMR) in Colon Lesions
New Strategies and Novel Biologics in Managing Refractory UC & Crohn's Disease
Diagnosis and Management of Microscopic Colitis
SRUS: Intractable Problem

Session: 10. Pancreatic Disorders

Acute Pancreatitis: Updates in Management
Innovations in Endoscopic Ultrasound (EUS) in Pancreatic Disease
Management of Pancreatic Cysts: From Surveillance to Surgery
Advances in Pancreatic Cancer Diagnosis and Staging
Role of Neo Adjuvant and Adjuvant Therapy in Pancreatic Cancer.
Chronic Pancreatitis: Advances in Endoscopic and Surgical Management

Session: 11. Large Intestine and Colorectal Disorders III

Advancements in Polypectomy Techniques and Management of Complications
Endoscopic Management in Large Bowel Bleeding
Role of IR in GI Bleeding
Enteral and Parenteral Nutrition in GI disorders
Causative Role of Diets in GI Disorders
